

Umbra Laser-Cut Panels

Add artistic shade to your next structure with CEAS+'s Umbra laser-cut panels. Designed to create unique shadows and dappled shade, laser-cut designs mimic the feeling of sitting under a tree providing creative designs on the ground throughout the day.

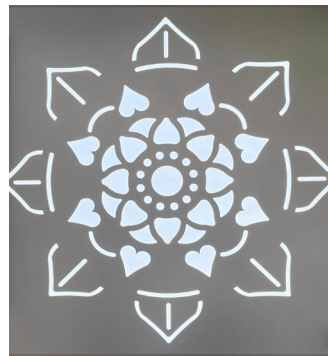

- Aluminum panels
- Fully engineered solution meeting local building code loading requirements
- Finite element analysis (FEA) of our aluminum perforated panels
- Various standard patterns
- Available in our standard powder coat colors
- 10 year warranty

Umbra laser-cut panels can be added to a variety of CEAS+ structure frames as a stand-alone roof type or in combination with trellis members. They are directly mounted to steel frame members with self-drilling screws for quick and easy installation.

pattern: vines

Applications

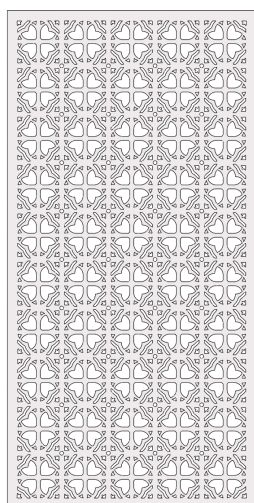

Umбра panels are available for a variety of applications, including:

- Overhead shade
- Decorative railings
- Privacy dividers
- Cladding
- Screens

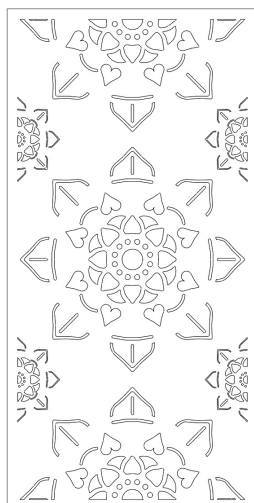

If you would like to discuss a design not seen below, please talk to us about custom patterns.
