BEYOND STOCK SOLUTIONS

*Lake Eva Park
Haines City, FL*

Some projects require more.... more imagination, more attention to detail, more skillful execution. That's the Poligon sweet spot. There is no such thing as a "typical Poligon structure." Our singular focus, internal resources and years of experience help you punctuate your project sites with a sense of functional flair. Whether you're looking for a simple stand-alone structure or an integrated system of walkway covers and shelters, Poligon knows how to take your core concept and make it a reality.

FROM SIMPLE SKETCH TO SIMPLY PERFECT: THE POLIGON PROCESS

This is a partnership. Here's what we'd like to see from you: high expectations, creativity and a strong commitment to your ideas. Here's what you can expect from Poligon: the engineering expertise and manufacturing excellence to bring your concept to life. Our process utilizes a series of checkpoints to keep you in the loop and to keep all involved on the right track. We are deliberate and deeply focused on even the smallest details. From the materials we use, to the manufacturing tolerances we employ and even the way we transport your structure to the jobsite... nothing is ever left to chance.

1

INITIAL CONTACT

Contact Poligon and we'll begin the discovery process: objectives, timelines, budgets and most importantly what you have in mind.

2

SCHEMATICS

This is an iterative process. Your concept is refined and value engineering can be performed. We function as an extension of your office, saving you time and money. Poligon can create original designs or work from existing drawings

4

MATERIALS PROCUREMENT & COMPONENTS FABRICATION

All framing and roofing materials are procured through Poligon. This streamlines the process, reduces coordination issues, and moves your project into the manufacturing stage more quickly.

6

PACKAGING & SHIPPING

Components are inspected prior to being carefully packaged. All shipments are on dedicated flatbed trucks. Poligon controls when our structures are shipped and how they will be treated in-transit.

8

PROJECT COMPLETE

Throughout the process, Poligon's single-source responsibility improves communication and ensures that any unforeseen issues get solved quickly and cost effectively.

3

STAMPED ENGINEERING DRAWINGS/ FINAL PRICING

No need to hire a structural engineer. Our expertise and resources ensure the design will be cost effective. Our drawings are suitable for the permitting process, saving time and avoiding additional costs.

5

POWDER COATING

Finished parts receive our exclusive Poli-5000 powder coating; the toughest most lustrous coating in the industry. We are PCI 4000 certified.

7

INSTALLATION

Poligon's structural steel frames bolt together quickly and don't require specialized sub contractors. Our framing system not only hides nuts and bolts from sight, it also eliminates bird nesting.

Center Street Walkway Cover, Dallas, TX
Prime Consultant: Graham Associates, Inc.
Concept Design: Townscape, Inc.
Design Development/Construction Documents:
Schrickel, Rollins & Associates, Inc.

OUR ENTIRE BUSINESS MODEL IS DESIGNED TO GET YOUR STRUCTURE ENGINEERED AND BUILT.

1. Poligon's in house powder coating facility uses a superior Poli-5000 finish, the most durable finish available.

2. Poligon's simple bolt together frame design eliminates field welding, exposed fasteners and bird nesting.

3. Custom Ramada, Bull Head City, AZ

At Poligon, our entire organization is focused on designing and building beautiful hard-working shelters. Every project we take on is engineered from the ground up to deliver a functional and aesthetic gem that attracts second looks as well as a crowd. It all starts with you: your ideas, your objectives, your project vision. At Poligon, we're experts. You can rest assured every aspect of your project will be executed just as it was envisioned.

DESIGNED RIGHT BUILT RIGHT

Poligon has been making structures since 1964. We've designed our structures to withstand hurricanes in Florida, blizzards in Colorado, and earthquakes in California. We create solutions and then we build them. Your project never leaves our sight. Our state-of-the-art engineering, drafting, and manufacturing facility is organized for the sole purpose of designing and creating the industry's best structures. When you see them, your discerning eye will see that their quality and beauty speaks for itself.
